CATALOG 2016

Pedors® Fantastically Functional Footwear™

*"My feet are impossible to fit, with severe bunions and hammer toes. When I first began buying Pedors shoes, I found they were much more comfortable and half the weight of shoes I had custom made (which cost me \$1,500).*

*The company's no-cost return policy allowed me to try several sizes until I found the exact and I mean 'exact' size for my troublesome feet. I now walk in comfort and never again buy shoes other than Pedors"* **P.M.** - **Pedors® Stretch Walker**

All reviews in this catalog and on pedors.com are independently verified by Yotpo®.

## Pedors | Commitment To Service

Hello and thank you for taking the time to view our catalog for 2016. This year sees the introduction of some exciting new products so be sure to read the catalog in full.

At pedors.com we encourage all of our customers to try on as many of our products as they like in the comfort of their own home. With FREE Shipping, FREE Return Shipping and FREE Exchange Shipping you can order with confidence.

If something doesn't work for you simply return it for a full 100% refund, guaranteed.

Feel free to ask as many questions as you like by phone, through email or by using the "chat" function on the site. We are sincerely eager to help.

Bracing | Deep Orthotics | Swelling  
Hammertoes | Edema

*"No more pain in the ends of my toes. I work in nursing. Heavy indoor walking. I have gout, hammer toes, arthritis, diabetes, neuropathy. I am by no means proud of this. In these shoes I have no pain. My feet still get tired like the rest me after work but I have no pain. No pain no pain no pain....woohoo!*

*By all means get their special diabetic insoles too. They really do what they say they'll do.*

*Good golly what a change for the better. Thank you Pedors" R.D. - Pedors® Classic*

# PEDORS® CLASSIC

UNISEX

The Pedors® Classic is the shoe that made us famous. It was the first purpose designed orthopedic stretch shoe to market.

The Classic has gone through few revisions over the past 20 years but the essence of the shoe still remains the same.

Stretch Pedoprene™ upper, lightweight, machine washable, orthotic friendly, easy closure, 60+ sizes and three widths to give that custom fit right out of the box.

Canvas & Pedoprene™ | Over Sixty Sizes | Medium, Wide, X-Wide Widths

**600 BLACK** (601 Beige, 604 Brown; shown on previous page)

**Classic Black #600**

Pedors® Fantastically Functional Footwear™

*"I suffered greatly from my foot pronating until I could barely hobble using a cane. With the help of physical therapy and my Genext Orthotics, I threw away the cane and am almost back to normal. Thanks, Pedors!"* **Ahava** Genext® - *"Beats" Active Orthotics*

*"I use these in all of my shoes and they work just as well as the \$300 orthotics I bought last year. Lesson learned!"* **M.B.** - Genext® *"Beats" Active Orthotics*

*"I needed special inserts for my plantar fasciitis, and the Genext Orthotics were just right. Ordered online - simple, easy, and they arrived on time. Couldn't be more pleased."*  
**B.M.** - Genext® *"Beats" Active Orthotics*

*"I had real bad feet that would hurt at night and have sciatica in my leg. These inserts helped me a lot. I have three different pairs in different shoes."*  
**C.M.** - Genext® *"Beats" Active Orthotics*

# Genext® Orthotics

## Genext® "Beats" Active Orthotic

Genext® Active Orthotics feature specially layered tri-density bamboo charcoal foams which maximize both shock absorption and cushioning while also managing to control moisture, odor and bacteria present in the foot.

The combination of cork and rubber in the arch molds to your feet to ensure maximum comfort, stability and support. A polyester top cover designed to reduce friction and wick away moisture is used, while support in the heel provides ankle stability and promotes balance.

Genext® orthotics are very effective in reducing the pain associated with Plantar Fasciitis.

## Genext® Dress Orthotic

Using the same original Genext cork and rubber shell to provide the basis for the orthotic support, a memory foam component has been added to give the arch a soft and more cushioned feel when worn.

The thermoplastic TPU base layer provides the durability to ensure the orthotic wears well and continues to provide the support needed. The microfiber top cover finishes the device attractively. The Dress Orthotic has a lower profile than the Active Orthotic.

GENEXT® HIKER WOMAN

**Women's**

**Material:** Leather + Suede + Mesh

**Colors:** Grey With Red Accents

**Widths:** Medium, Wide, X-Wide

**Description:** Deep, strong Hiker with three levels of removable depth that allows for custom orthotics.
